

WHO IS GEORGIA PET FOUNDATION?

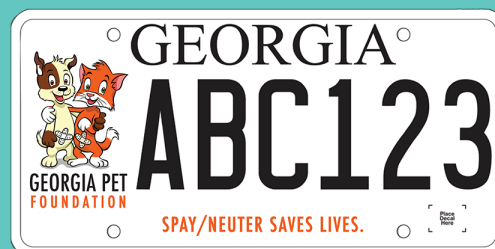

Georgia Pet Foundation is focused on ending pet overpopulation in Georgia by supporting spay-neuter programs and conducting public education initiatives.

GPF was established as a 501(c)(3) non profit organization in April 2016 when Governor Deal signed legislation approving the new Georgia Pet Foundation specialty license plate.

WHAT IS GEORGIA PET FOUNDATION DOING?

Georgia Pet Foundation is raising funds through the sale of our specialty tag to fund eligible, statewide spay-neuter programs in an effort to eliminate pet overpopulation and the euthanasia of healthy and treatable cats and dogs.

WHY SHOULD I CHOOSE THE GEORGIA PET FOUNDATION TAG?

This is an easy answer! Our tag is cheaper than other S/N tags! But more importantly, a GPF tag purchase guarantees more of your money will reach animals in need. Each step of the GPF process maximizes your dollar.

80% of your GPF license plate goes to S/N funding

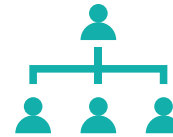

GPF is able to strategically target efficient and timely programs

GPF requires follow-up from grantees on the total efficacy of their programs

GPF will post grantee and follow-up details

Communities can use GPF grantee information to replicate successful programs

Georgia Pet Foundation is not encumbered by political maneuvering, so we will award funds based on the most effective programs and to those areas that are particularly under-served.

HOW CAN I HELP?
